

Intent to Participate Form – SAMPLE

Firm Information

The form below represents the printable sample version of the on-line registration form. This document offers the prospective participants a preview of the information required when registering with the Board on-line, and is intended to be used as an informational tool only.

This form is not an alternative to the on-line entry; only forms submitted electronically, through the Board's based registration system, are accepted.

NOTE: Your information will be saved at each step when you press "save and continue" and you can safely log out and return to complete it later.

- "Alternate firm name" means any other name under which the firm is known and carries on practice, such as a name in another language or a group affiliation.
- "Total revenue" means gross revenues from all clients for the last reported fiscal year, in thousands. Where the firm is a non-Canadian firm, revenue should be translated to Canadian dollars at a current rate of exchange.
- Please refer to the Registration FAQs for further details.
- Office information is required for all offices in the case of Canadian accounting firms. For non-Canadian firms, information is required only for offices that issue audit reports on the financial statements of entities that are reporting issuers in Canada.
